GEZAHEGN ABERA

Junior Full-Stack Developer

Addis Ababa, Ethiopia | +251 988 161 928 | gezahegnaberamegenasa@gmail.com
github.com/GezishDev | gezahegnabera.vercel.app

PROFILE

Computer Science student and junior full-stack developer who builds and deploys business websites and web applications with React, Next.js, TypeScript, Node.js and Python. Built the Aqua Flex website end to end and delivered the complete frontend of Andropia's B2B e-commerce platform, connected to an existing backend. A hands-on networking internship adds an infrastructure perspective; currently learning Flutter/Dart and building toward application security.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, Bootstrap
Backend & APIs: Node.js/Express, Python/FastAPI, PHP, REST API integration, JWT authentication
Databases: PostgreSQL, MongoDB, MariaDB
Tools & Systems: Git/GitHub, Docker, Linux, Vercel
Currently learning: Flutter/Dart, application security fundamentals

EXPERIENCE

Frontend Developer | Andropia Electronics PLC — March 2026 – June 2026

- Built the complete frontend of a B2B e-commerce platform using React, TypeScript and Axios, connected to the company's existing Node/Express backend.
- Implemented login with role-based access, product catalog with search and filtering, cart and checkout, an admin dashboard, and order tracking and history.
- Aligned endpoint paths, user roles, the API client structure and TypeScript types with the backend contract.

Network Engineer Intern | G2G IT Solutions — June 2026 – August 2026

- Developed FreePBX Log Lifecycle Manager (PHP, MariaDB, FreePBX APIs): retention, cleanup and archiving of call records, logs and recordings, plus a module for monitoring call-center agents. Developed and tested locally; in progress, not yet production-tested.
- Configured IP cameras, installed new Wi-Fi networks and maintained existing ones; worked with MikroTik and Cisco switches; gained exposure to Juniper firewall OS and FreePBX.

Freelance Full-Stack Developer — 2024 – Present

- Design, build and deploy websites for small businesses and custom web applications and dashboards.

PROJECTS

Aqua Flex | Next.js — aquaflexs.org

- Sole developer of a website for a waterproof wall paint company: designed, built, deployed and registered the domain.
- Built QR verification pages: customers scan a code on the paint bucket and the page confirms the product is genuine.

NeuralDesk (AI Agent Workspace) | Python, FastAPI, React, PostgreSQL, LangGraph, LangChain, Docker, JWT

- Full-stack workspace with JWT login and AI agent workflows. Frontend and backend run locally; not yet deployed.

EDUCATION

BSc Computer Science | Jimma University — 2023 – 2027 (Expected)

TRAINING & CERTIFICATES

Cisco Networking Academy (coursework): Introduction to Networks; Switching, Routing and Wireless Essentials; Enterprise Networking, Security and Automation; Introduction to Cybersecurity; Python Essentials 1.
Other: IBM Data Literacy and IBM Design badges; AI Safari certificate.

LANGUAGES

Amharic (Native) • Afaan Oromo (Native) • English (Professional working)
