PROFILE

Computer Science student with hands-on networking experience from a network engineer internship: Wi-Fi installation and maintenance, IP camera configuration, MikroTik and Cisco switch work, and exposure to Juniper firewalls and FreePBX telephony. Software skills in PHP, Python and web development let me build internal tools for network and telephony systems. Developing a security focus through Cisco Introduction to Cybersecurity coursework and interest in secure coding, authentication and web/API security.

TECHNICAL SKILLS

Networking: MikroTik, Cisco switches, Wi-Fi installation and maintenance, IP camera configuration, networking fundamentals (Cisco coursework), Juniper firewall OS (exposure)

Systems & Telephony: FreePBX, Linux, Docker

Programming & Web: PHP, Python, JavaScript/TypeScript, React, Node.js/Express, MariaDB, PostgreSQL, REST APIs, JWT authentication

Security (learning): Cybersecurity fundamentals, secure coding, authentication and authorization, web and API security

EXPERIENCE

Network Engineer Intern | G2G IT Solutions — June 2026 – August 2026

- Configured IP cameras and installed new Wi-Fi networks; maintained existing Wi-Fi networks.
- Worked hands-on with MikroTik and Cisco switches.
- Learned Juniper firewall OS and worked with FreePBX telephony.
- Built FreePBX Log Lifecycle Manager (PHP, MariaDB) to manage retention, cleanup and archiving of call records, logs and recordings, including a module to monitor call-center agents. Developed and tested locally; not yet production-tested.

Frontend Developer | Andropia Electronics PLC — March 2026 – June 2026

- Built the complete frontend of a B2B e-commerce platform (React, TypeScript, Axios) and integrated it with an existing Node/Express backend, including role-based access.

Freelance Full-Stack Developer — 2024 – Present

- Build and deploy business websites and web applications. Built the Aqua Flex website (Next.js) with QR verification pages that let customers confirm a product is genuine.

EDUCATION

BSc Computer Science | Jimma University — 2023 – 2027 (Expected)

TRAINING & CERTIFICATES

Cisco Networking Academy (coursework): Introduction to Networks; Switching, Routing and Wireless Essentials; Enterprise Networking, Security and Automation; Introduction to Cybersecurity; Operating Systems Basics; Computer Hardware Basics; English for IT 1; Python Essentials 1.

Other: IBM Data Literacy and IBM Design badges; AI Safari certificate.

LANGUAGES

Amharic (Native) • Afaan Oromo (Native) • English (Professional working)
